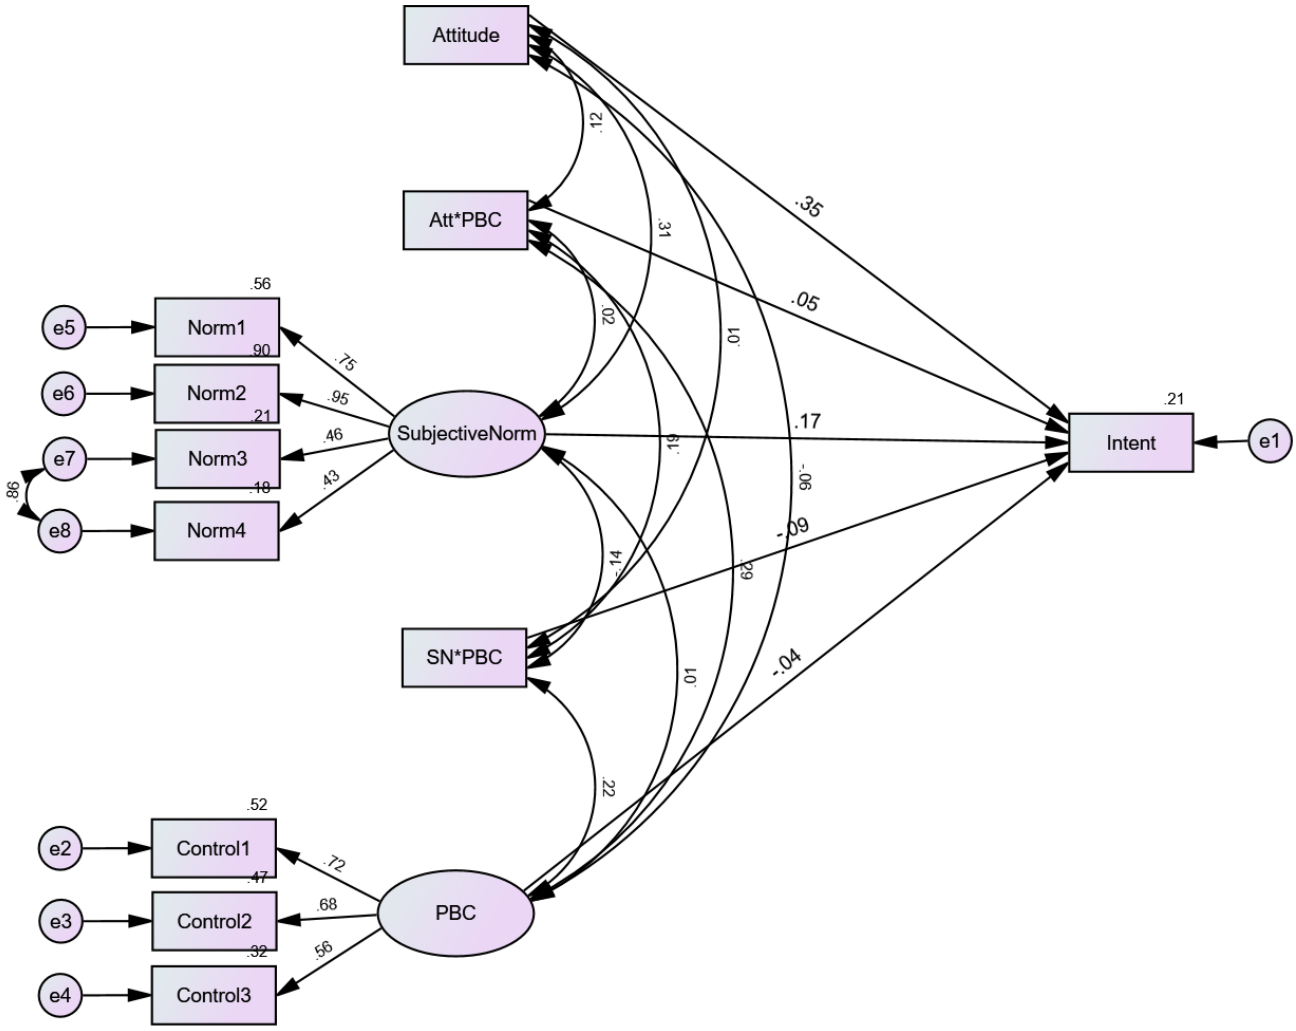
S3 Fig. Full structural equation model using the Theory of Planned Behavior regarding national park visitors' willingness to walk over decontamination mats before and/or after entering a cave in a national park.



Variable Definitions:

- Norm1: I am more likely to walk over decontamination mats if information about it is written on a sign
- Norm2: I am more likely to walk over decontamination mats if a ranger tells me about it
- Norm3: I am more likely to walk over decontamination mats if my traveling group is doing it
- Norm4: I am more likely to walk over decontamination mats if other visitors are doing it
- Control1: Whether or not I walk over decontamination mats is completely up to me
- Control2: Whether or not I walk over decontamination mats is influenced by my resources
- Control3: Whether or not I walk over decontamination mats is influenced by my prior knowledge
